

MGH Associates is seeking a creative civil designer with a passion for sustainable engineering and urban design. This position requires a minimum of 2 years of AutoCAD experience in the industry. Some sustainable design knowledge preferred, but training will be provided.

MGH is a unique land planning and civil engineering firm located in downtown Vancouver, WA. Serving a diverse base of architects, developers and public agencies, our employees work on a wide variety of interesting and innovative projects. Our firm provides staff with a supportive work atmosphere and opportunities for professional growth. MGH offers competitive wages and great benefits in a collaborative team environment.

Please respond with your resume and a cover letter to Maria Cahill ([maria.cahill@mghassociates.com](mailto:maria.cahill@mghassociates.com)) conveying the specifics of your interest in this position.

PEOPLE MAKING PLACES® : MGH is a collaborative network of dedicated PEOPLE with diverse and complimentary skills. We take pride in MAKING unique and enduring communities through the application of innovative and artful design. The collective product of our efforts is livable and sustainable PLACES.
